

14.1 (1a, 3, 7 ) 14.2 ( 3, 13, 14 )

**14.1.1a** Show that if a field  $K$  is generated over  $F$  by the elements  $\alpha_1, \dots, \alpha_n$  then an automorphism  $\sigma$  of  $K$  fixing  $F$  is uniquely determined by  $\sigma(\alpha_1), \dots, \sigma(\alpha_n)$ . In particular show that an automorphism fixes  $K$  if and only if it fixes a set of generators for  $K$ .

■

**14.1.3** Show that if a field  $K$  is generated over  $F$  by the elements  $\alpha_1, \dots, \alpha_n$  then an automorphism  $\sigma$  of  $K$  fixing  $F$  is uniquely determined by  $\sigma(\alpha_1), \dots, \sigma(\alpha_n)$ . In particular show that an automorphism fixes  $K$  if and only if it fixes a set of generators for  $K$ .

■

**14.1.7** Show that if a field  $K$  is generated over  $F$  by the elements  $\alpha_1, \dots, \alpha_n$  then an automorphism  $\sigma$  of  $K$  fixing  $F$  is uniquely determined by  $\sigma(\alpha_1), \dots, \sigma(\alpha_n)$ . In particular show that an automorphism fixes  $K$  if and only if it fixes a set of generators for  $K$ .

■

**14.2.3** Show that if a field  $K$  is generated over  $F$  by the elements  $\alpha_1, \dots, \alpha_n$  then an automorphism  $\sigma$  of  $K$  fixing  $F$  is uniquely determined by  $\sigma(\alpha_1), \dots, \sigma(\alpha_n)$ . In particular show that an automorphism fixes  $K$  if and only if it fixes a set of generators for  $K$ .

■

**14.2.13** Show that if a field  $K$  is generated over  $F$  by the elements  $\alpha_1, \dots, \alpha_n$  then an automorphism  $\sigma$  of  $K$  fixing  $F$  is uniquely determined by  $\sigma(\alpha_1), \dots, \sigma(\alpha_n)$ . In particular show that an automorphism fixes  $K$  if and only if it fixes a set of generators for  $K$ .

■

**14.2.14** Show that if a field  $K$  is generated over  $F$  by the elements  $\alpha_1, \dots, \alpha_n$  then an automorphism  $\sigma$  of  $K$  fixing  $F$  is uniquely determined by  $\sigma(\alpha_1), \dots, \sigma(\alpha_n)$ . In particular show that an automorphism fixes  $K$  if and only if it fixes a set of generators for  $K$ .
